EXPERIENCE

Imarticus Learning   May 2025 – June 2025

Front-End Development Intern | CODESOFT

<april25-may25>

- *Developed **JavaScript-based projects**, including an interactive calculator and a responsive portfolio website, enhancing user experience and functionality.*
- *Collaborated on building a **landing page** from scratch, applying modern HTML/CSS techniques to ensure cross-device compatibility.*
- *Gained hands-on experience with version control (Git) and agile development practices through iterative project updates.*

Full-Stack Development Intern | CODEALPHA

<may25-may25>

- *Contributed to **e-commerce solutions** using Vue.js and Nuxt.js, focusing on front-end interfaces and performance optimization.*
- *Assisted in developing **task management tools** (Worklenz) and UI templates (Spruce), streamlining workflows and design consistency.*
- *Participated in code reviews and documentation, ensuring maintainability and scalability of projects.*

PROJECTS

Open-Source Contributions & Projects

- Developed **JavaScript applications** (Calculator, Portfolio) in **CODESOFT**, showcasing front-end proficiency.
- Built **Python tools** (Autocorrect, ML models) in **Pinnacle**, highlighting automation and AI skills.
- Created **Vue.js/Nuxt e-commerce solutions** in **CODEALPHA**, demonstrating full-stack capabilities.
- Contributed to **Fault-Detection-Diagnosis**, solving technical system issues.

Technologies: JavaScript, Python, Vue.js, Nuxt.js, TensorFlow, NLP.

EDUCATION

VIT Bhopal University, Sehore, Madhya Pradesh   August 2023 – May 2027
Bachelor of Technology in Computer Science (CGPA - 7.91)   VITB University, B.tech 3rd Year

SKILLS

Languages: Java, Python, C++, Kotlin, MySQL, Flutter
Tools: Git, Github, Firebase, Android Studio, Azure
Key Skills Highlighted: JavaScript, Vue.js, Nuxt.js, Responsive Design, Git, Agile Development.
